

REPÚBLICA opens its fourth location in Multiplaza Escazú

- The brand strengthens its presence in the Greater Metropolitan Area (GMA) alongside its locations in La Bandera, Sabana, and Alajuela
- The new location in Multiplaza Escazú has a capacity for 110 people.
- Its opening generates 15 new jobs, adding to the 75 existing positions.

San José. January 2026. REPÚBLICA continues to consolidate its presence in the Greater Metropolitan Area with the opening of its fourth location in Multiplaza Escazú. The investment in the new space is close to US\$1.5 million, reaffirming the business's commitment to expanding its reach and continuing to contribute to the growth of the country's gastronomic sector.

This new opening represents an important step for the project's partners—FIFCO and LOGICOM—by strengthening their commitment to job creation and the development of modern, accessible public spaces. It also comes at a key moment for the brand, following its integration into Heineken's global portfolio after the company's recent acquisition of FIFCO.

It is located in Multiplaza Escazú, next to Starbucks, and has a capacity for approximately 110 guests, distributed between the indoor area and a large outdoor terrace. The opening of the new establishment created 15 jobs, adding to the total of 90 employees already working at its other locations in Sabana Norte, La Bandera, and Plaza Real Alajuela, strengthening its presence in strategic locations in the Greater Metropolitan Area.

Maria Pía Robles, FIFCO's Director of Corporate Relations, commented: *"We want every visit to REPÚBLICA to be the perfect excuse to go out, share, and celebrate life. Our new space at Multiplaza Escazú is designed for people to connect and have fun over good beer, accompanied by a delicious menu. All this in a privileged location, ideal for enjoying with friends and family."*

Karla Cordero, General Manager of República, said: *"At República, we create a comprehensive experience where high-level gastronomy, warm and attentive service, vibrant entertainment, and an inviting atmosphere come together to offer memorable moments."*

The opening of this location incorporates the image renewal that REPÚBLICA has been implementing in its different establishments, focusing on more modern, fresh spaces in line with current trends, in order to provide more pleasant and versatile environments for different consumer experiences.
